For decades, two of our most popular destinations have been stunning Glacier National Park in Montana and the Canadian Rockies. Both destinations are without equal for sheer grandeur, beauty and overwhelming vistas and there is no better month to see them than June. We have combined these two destinations into an elegant and relaxing holiday with a number of attractive features. First off, we have included train travel to & from Glacier National Park from the Midwest or West Coast aboard the famous Empire Builder train, a speedy overnight trip from either point, allowing our guests to travel without the hassle of airports, flights without meal service and strip searches. Nicer still, we have included two legendary and historic hotels at Glacier National Park: the iconic Glacier Park Lodge (the largest log building in the world and one of the great National Park lodges!) and the extraordinary Prince of Wales Lodge, high atop a plateau overlooking breathtakingly beautiful Waterton Lake. In Banff, our guests enjoy the rare luxury of a three-night hotel stay at the Mount Royal Hotel in the heart of Banff Township. Best of all, complete and comprehensive sightseeing is included throughout with such treats as the gondola ride up Sulphur Mountain in Banff, a cruise on Waterton Lake and the famed red open-air 'jammer buses' at Glacier National Park that will take us over the stunning 'Going to the Sun' Highway.

As befits a well-planned holiday, there is a professional tour manager to take care of all the details so that you can focus on the important things like the best vantage point for taking in Lake Louise. Speaking of Lake Louise, our guests enjoy breakfast at the renowned Chateau Lake Louise one morning during our stay in Banff, one of the many dining highlights of this holiday.

There is only one flaw with this holiday and that is both departures will sell out quickly and prompt reservations are encouraged. Your entire holiday can be booked in one easy call to our toll-free number including any connecting train travel you may require, travel insurance, stopovers and more. All of our staff have traveled on Amtrak many times and know all about the trains, the Canadian Rockies and Glacier National Park. We invite you to join us.
